

# Xceedance for E&S Carriers

Purpose built capabilities for speed, precision, and profitable growth

# Helping E&S carriers underwrite smarter, move faster, and scale with confidence.

The E&S market demands agility—rapid product launches, fast underwriting decisions, precise risk evaluation, and disciplined financial control. Xceedance partners with E&S carriers to deliver **tech-enabled, end-to-end support across the full insurance value chain, purpose-built** for property and casualty insurance.

With deep E&S domain expertise and global scale, Xceedance helps carriers modernize operations, improve underwriting accuracy, strengthen broker relationships, and accelerate profitable growth—without compromising control or compliance.

## Why E&S Carriers Choose Xceedance

E&S first execution across underwriting, operations, claims, and finance

Technology-enabled delivery with automation, analytics, and AI

Scalable operating models to support growth, volatility, and peak demand

Proven results with measurable efficiency, accuracy, and speed gains

# End-to-end support across the E&S insurance lifecycle

## Product Development:

- Product filings and maintenance
- Rating configuration and testing in policy administration systems
- MGA and delegated authority program support
- Statistical reporting and book and rate monitoring

## Broker Engagement:

- Calendar, meeting, and engagement support
- Broker data management and reporting
- Event, pipeline, and activity reporting
- Distribution insights to support growth strategy

## Submission Clearance & Setup:

- Submission clearance and sanctions screening
- Structured data capture and validation
- Insured folder setup and documentation support
- Intake readiness for underwriting teams

## Underwriting Support:

- Loss history, exposure analysis, and risk assessment
- Pricing, rating, and quote processing in policy administration systems
- Submission triage with catastrophe flags and hazard analysis
- Comparative, renewal, and portfolio analytics

## Policy Servicing:

- Slip data capture at quote and bind
- Endorsement processing and policy issuance
- Forms and documentation management
- Financial, regulatory, and bordereaux reporting

## Credit Control:

- Invoicing and broker closing verification
- Net premium validation and invoice generation
- Cash application and daily balancing
- Overdue premium management and collections

## Finance & Accounting:

- IFRS 17 and US GAAP close support
- Budgeting, forecasting, and planning support
- Regulatory, statutory, and management reporting
- Audit support and financial trend analysis

## Claims:

- First Notice of Loss intake and setup
- Settlements, payments, and recoveries
- Loss runs and claims reporting
- Vendor and TPA coordination

## SOX & Compliance:

- SOX testing and internal audit support
- Assurance activities and statistical reporting
- System interface and financial reconciliations
- End-user computation and control testing

## Technology Enablement:

- Core system integration and optimization
- Custom application development and enhancements
- Data, analytics, and reporting platforms
- Infrastructure, security, and quality engineering

# Proven Outcomes for E&S Carriers

## AI-Powered Submission Triage:

- 45% reduction in underwriter effort
- Submission to bind ratio improved from 17% to 22% in six months

## Risk Data Platform:

- ~60% reduction in manual bordereaux and SOV effort
- ~40% faster turnaround on risk data operations

## Finance Transformation:

- 100% data accuracy
- 30% increase in operational efficiency

## Core System Migration at Scale:

- \$2B in policies migrated
- \$350M premium live within 36 weeks
